RE: Massage insurance rate and private pay rate.

Dear Patients and Clients,

Cascade Summit Physical Therapy/Massage would like to make you aware of the prices we charge for insurance patients vs. private pay clients.

The rates for private pay clients are as follows:	½ hour massage - $30.00 1 hour massage - $50.00
The rates for insurance patients are as follows:	½ hour massage - $78.00 45 min massage - $117.00 1 hour massage - $156.00

For our insurance patients, as a courtesy we will gladly bill your insurance company. Ultimately you are responsible for charges for all services provided to you. In the even that your insurance company denies payment, or makes partial payment you are responsible for the balance due. If our massage therapist contracts with your insurance company we will accept the discount rate for services.

Please note for those clients who are private pay, our office does not keep any records pertaining to your care.

I understand the price difference for my massage and elect to have my massage:

(Please select)

_____ massage by insurance billing

_____ massage by private pay.

_____ _____

Signature Date

Please feel free to ask our office staff if you have any additional questions.

Thank you,

Yolanda Mercado
Office Manager
